TERMS & CONDITIONS

SUPPLEMENTAL INFORMATION

A supplement sheet will be available sale day with up-to-date performance information on the bulls and breeding information on the females. This sheet and any announcements from the block will take precedence over the printed material in the sale book. Please grab a sheet when you grab your buyer's number.

BUYERS UNABLE TO ATTEND THE SALE

Your sight-unseen purchase is guaranteed. You may contact Bob Rylaarsdam to assist you in purchasing a bull or female. You may have confidence in your bid and a full money back guarantee upon delivery.

PICK-UP DISCOUNT

We are offering \$100 discount off the selling price if you take possession of your bull directly after the auction.

DISCLAIMER

The Lewiston Livestock Market and the Camas Prairie Angus Ranch assume no liability for accidents or injury that may occur. Attend the sale at your own risk.

CAMAS PRAIRIE ANGUS RANCH SALE GUARANTEE

We offer a complete, full first breeding season guarantee. The first breeding season is defined as the first 90 days following turn out. All bulls have passed a semen test within 20 days of the sale.

For bulls, if the bull becomes injured or is infertile, we will exchange the bull with a suitable replacement if one is unavailable.

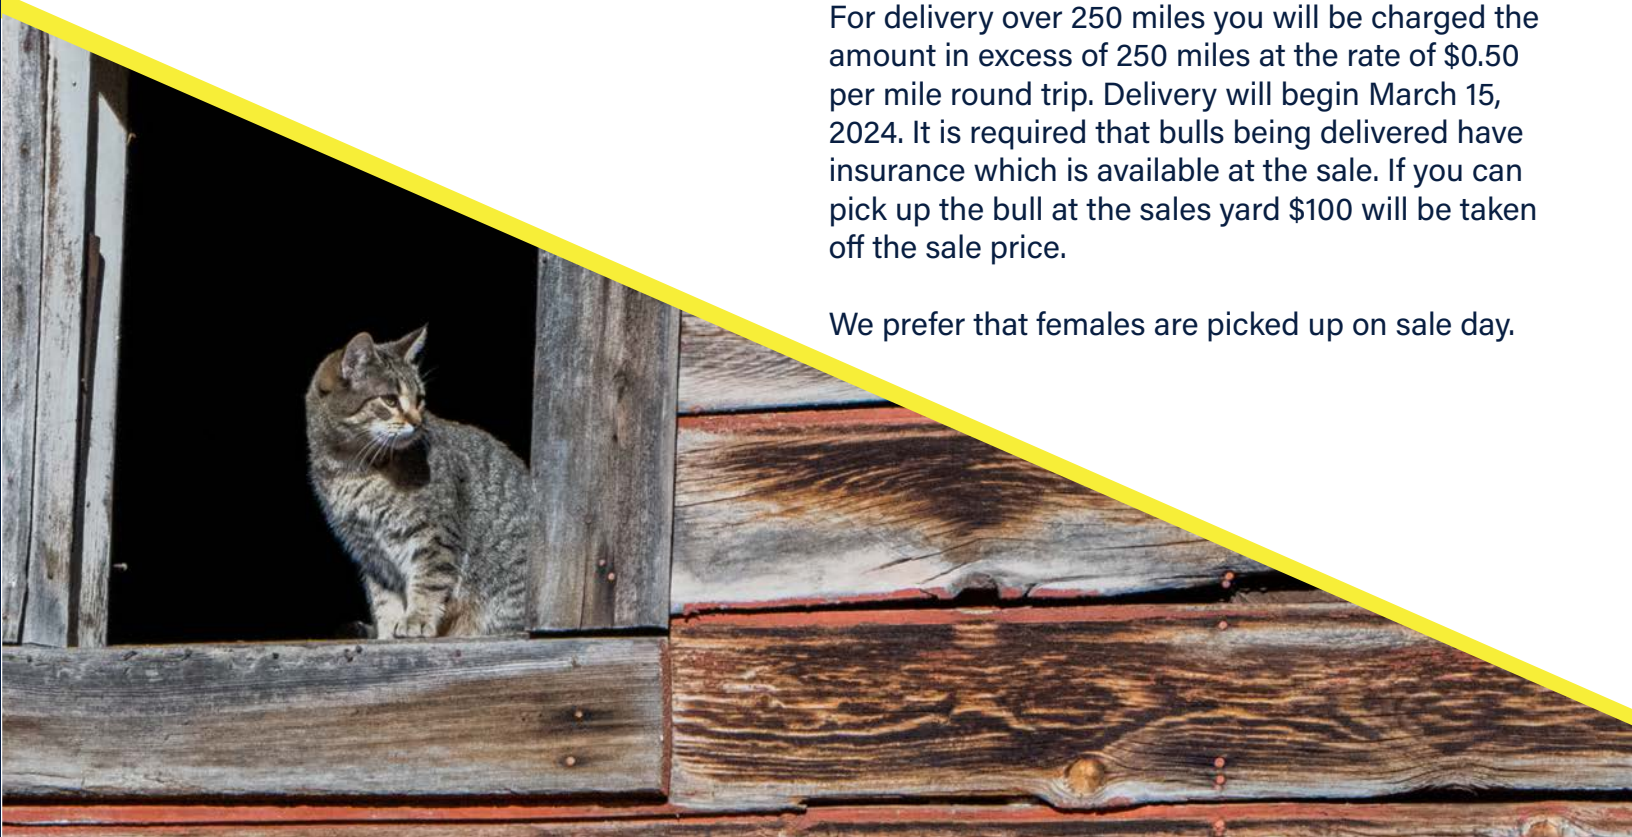

Salvage value will be deducted from purchase price, (figured at \$2000) and then the remaining balance split between buyer and seller, with buyer given credit towards purchase of another animal or a replacement if available

For females we guarantee they are fertile, will breed and become pregnant. However, we cannot guarantee a live calf. If a female is infertile, you will be given credit towards the purchase of another animal at our next sale. We will retain the salvage value.

DELIVERY

We offer free delivery up to 250 miles on all bulls. For delivery over 250 miles you will be charged the amount in excess of 250 miles at the rate of \$0.50 per mile round trip. Delivery will begin March 15, 2024. It is required that bulls being delivered have insurance which is available at the sale. If you can pick up the bull at the sales yard \$100 will be taken off the sale price.

We prefer that females are picked up on sale day.

CPAR

Welcome!

It is with great pleasure that we have survived another trip around the sun to bring another bull sale to all of you wonderful people. We thank the good Lord for bringing us through and bringing us many fortunes throughout the year. We had an abnormally wet spring, but then a drier summer. We then came across the best fall for grass that we have ever seen. We were able to push cows and leave them out on pastures longer than we ever have before! Then Mother Nature decided to get even with us and bring record lows for our fall breeding season. During the cold we, like everyone else, got to brave the cold feeding and taking care of cows, but also had the wrench of breeding the fall cows and getting recipients ready for embryos, but also started calving the spring heifers as well! What a wild week that was!

We are now up to Bull Sale prep and are very pleased with what we have to offer you! What a time to be in the cattle market also! The market is strong and it seems to just be getting stronger! We have always had the motto of "buy the best genetics you can afford" and this year is no different with the market going strong, we have continued our search for new herd bulls to back up our AI Program as well as donor cows to flush. The future is exciting! We have made a purchase of a Krebs Ranch Donor cow with Randy Kessler that shows our backing to our motto!

In this year's sale we have added a few bulls from Miles and Nina Hatter also known as Hatter's Advanced Angus. We are also partnering with him on some herd bulls as well as some donor cows. If you don't know Miles and Nina make sure to go talk to him! He is a great guy who likes great cattle and will get you laughing! He is also always willing to lend us a hand and we appreciate him greatly for it.

Our niece, Sydney, will be offering some bulls again this year. In December, she graduated from Oklahoma State with a degree in Animal Science. She still has a few cows in Grangeville and her bulls have been fed with ours since last fall. Also, we have a few bulls with our cousins (Double Ace Angus). They had a dry summer and the bulls were a little smaller when they showed up, but have done well in catching up to ours while here!

We will once again offer our spring 2 year old heifers and get them while you can because the crew wanted me to keep them! Most have calves on them and are ETs out of our Elite donors. These heifers have shown exceptional mothering ability, milking and temperament. I am not sure my crew will let me sell them again next year so get them while you can!

Thanks to our crew Mason & Kelli our full time help as well as Casey and Miles who step in when necessary.

Thank you for your interest and support of our program. We look forward to seeing everyone on March 7, 2024 at the Lewiston Livestock Market! Lunch starts at 11:30 p.m., Sale starts at 12:30 p.m. and feel free to come out in the morning to take a look at the bulls!

Hope to see everyone there!

*Bob & Ruby
Camas Prairie Angus Ranch*

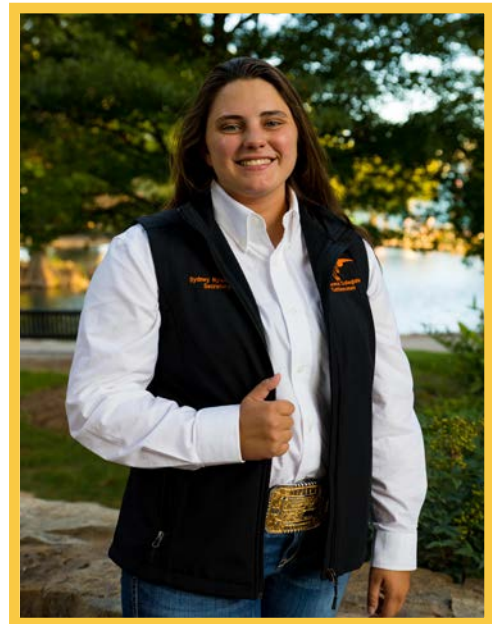

Welcome to the 2024 Camas Prairie Angus Ranch Annual Bull Sale. I would like to thank my Uncle Bob and Aunt Ruby for giving me the opportunity to market my cattle along with their own. My love for the cattle industry began at a very young age. I grew up showing angus cattle and became very involved with the National Junior Angus Association. My involvement as a Junior Angus member has provided me with many opportunities I wouldn't have had otherwise. I have attended numerous junior shows throughout the country, including four National Junior Angus Shows. This past summer, I represented the State of Idaho as a national showmanship delegate. I was named an honorable mention in the 2023 National Junior Angus Showmanship Contest. That was truly one of my greatest achievements during my time showing cattle. Though my time as a junior member has come to an end the memories and experiences will always follow me. My involvement in the cattle industry led me to attend my dream school, Oklahoma State University. In December of 2023, I graduated from OSU with a bachelor's degree in animal science. I am now beginning a full-time position to launch my career within the agriculture industry. Although I am not currently at the ranch, I will continue to be involved in breeding, management, and marketing decisions within our operation. Many of the cattle representing SR Diamond Angus in this year's sale are offspring of my show animals. Our goal is to pass on superior genetics regarding quality and disposition within our operation. All SR Diamond Angus bulls are born and raised on the ranch until shortly after weaning. Once the calves are weaned, they eventually join the rest of the CPAR sale cattle and follow the same feeding regiment. SR Diamond Angus strives to provide healthy, high quality breeding stock for our customers. I would not be in this position today without the help of my parents and family. If you have any questions regarding the cattle please feel free to contact myself at (208)-507-1902 or Marilyn Rylaarsdam at (208)-507-2084.

Thank You!

Sydney & Marilyn Rylaarsdam

Double Ace Angus started as a passion to do the best as cattle producers and sell high quality bulls. Starting Double Ace Angus was dream, a dream that required a lot of perseverance. We are brothers Carl Roosma and Daniel Roosma, and we are here to overcome challenges and invest in the best genetics we can.

We would like to thank Bob and Ruby Rylaarsdam for the opportunity to sell our bulls in their sale. We would also like to thank our family and friends for their support.

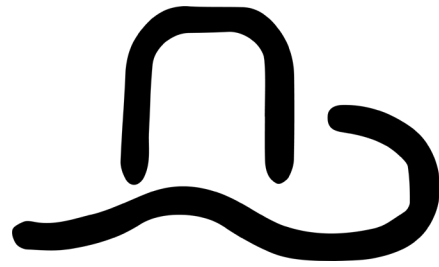

Thank you to the buyers for coming out to the bull sale. If you have any questions, feel free to contact Carl Roosma at (360) 922-2244.

Thank you,

Double Ace Angus

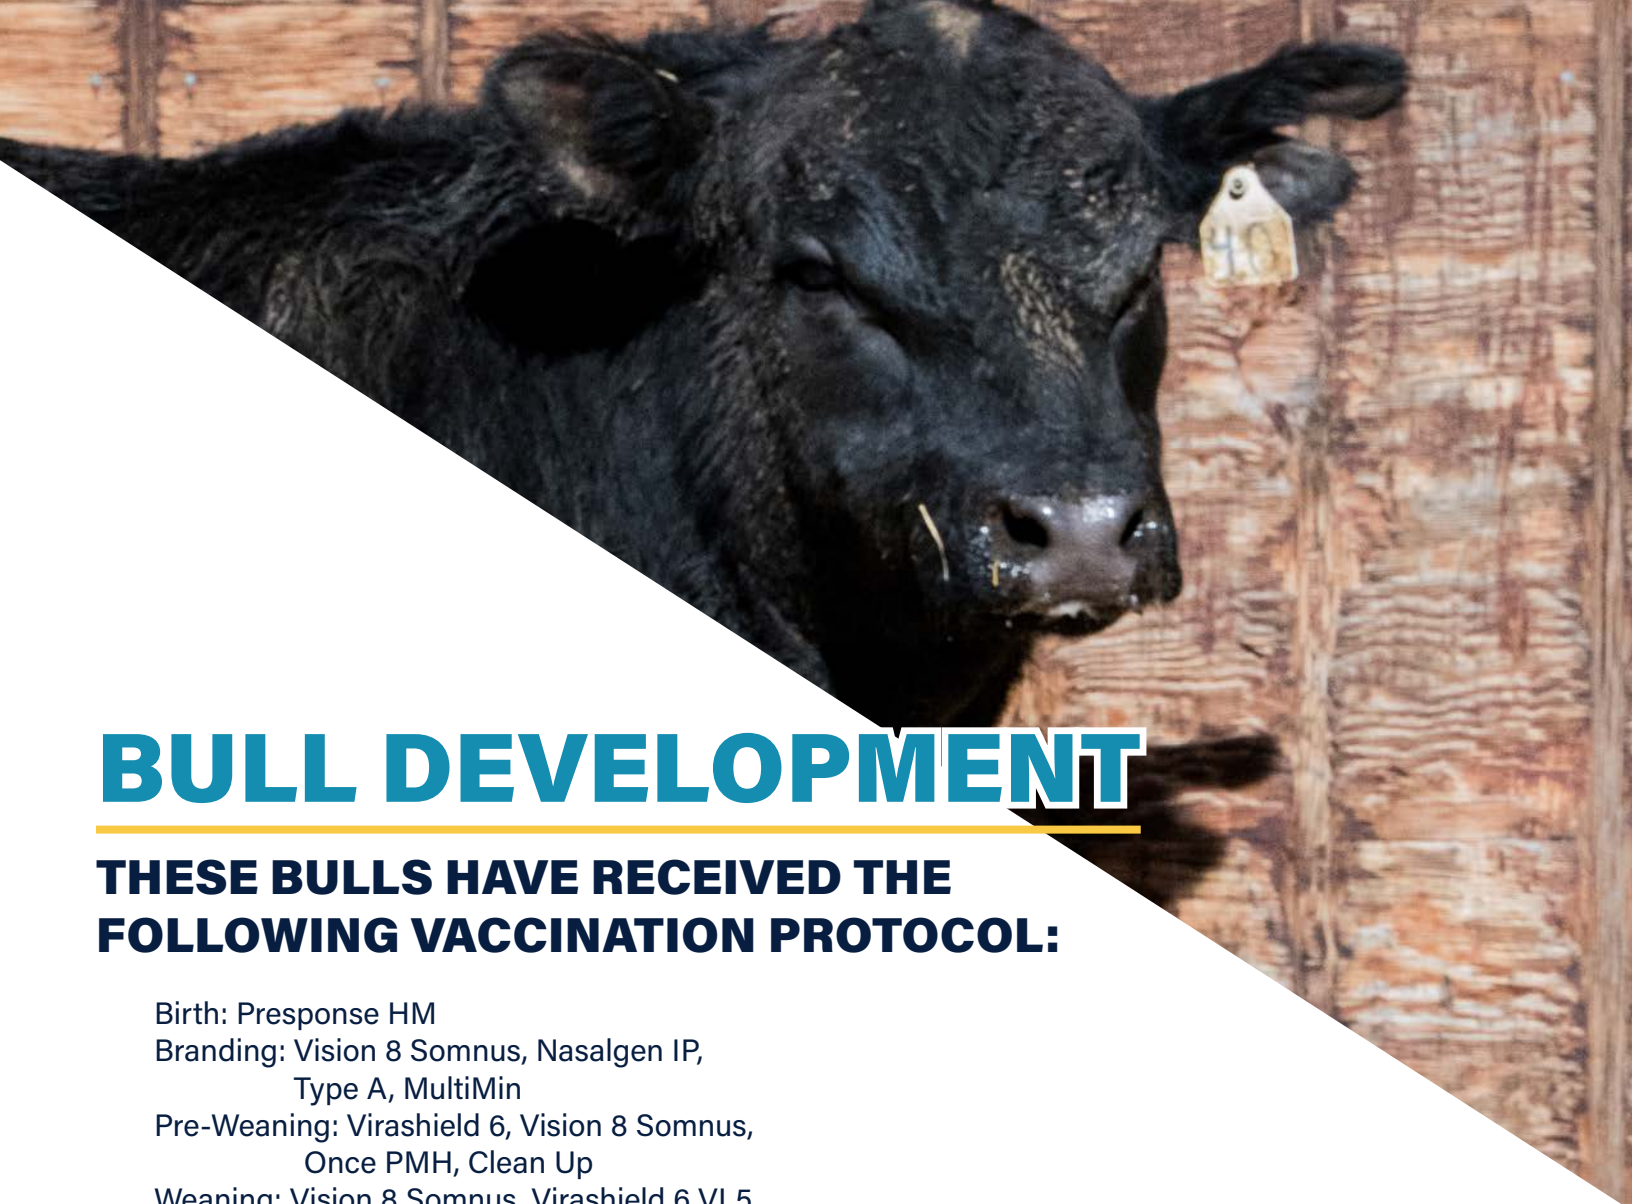

Advanced Angus

Advanced Angus, we are a small, family run operation that focuses on progressive beef industry genetics. Our cattle are selected for superior confirmation, maternal instincts and docile nature. All of our stock comes from genetic lines known for thriving in different environments and herdsman ship techniques. The blood lines you will find at Advanced Angus are sourced nationwide to ensure genetic diversity. We would like to thank Camas Prairie Angus for involving us in their offerings. It's an honor to be included. We wish all our cattle producing families in the Northwest a fruitful blessed year!

Miles, Nina, & Wyatt Hatter
(208) 697-3521

BULL DEVELOPMENT

THESE BULLS HAVE RECEIVED THE FOLLOWING VACCINATION PROTOCOL:

Birth: Presponse HM

Branding: Vision 8 Somnus, Nasalgen IP,
Type A, MultiMin

Pre-Weaning: Virashield 6, Vision 8 Somnus,
Once PMH, Clean Up

Weaning: Vision 8 Somnus, Virashield 6 VL5,
Dectomax Pour On

Yearling Vaccinations: Vision 8 Somnus, Virashield 6 VL5, Ivermectin Pour
on

Semen Test Time: Foot Rot and Clean Up

PERFORMANCE PLUS VAC PROGRAM

Camas Prairie Angus Ranch has worked closely with Dr. Terry McCoy at the Animal Health Center in La Grande, OR to customize a vaccination program that not only maximizes the efficiency and production of the cowherds, but more importantly develops these bulls with an end goal of providing a sound breeding tool that will transition to multiple environments without acclimation.

FALL BULLS DEVELOPMENT

Cows calve out on dryland fall pastures & wheat stubble in Grangeville, ID, and the calves are fed 4 lbs. of oats a day while on their mothers. At turnout time (April 1) they go back to grass with their mothers and weaned July 15th. After weaning they are fed 6-8 lbs. of oats and barley along with homegrown grass/alfalfa hay. This year the bulls were developed on the ranch in Asotin, Wa.

ICONS

We have added some icons to help you quickly find bulls who fit the most common specific needs.

CALVING EASE

Bulls with this icon are bulls we would be willing to use on our first-calf heifers. He would have to have a fairly low actual birth weight and a fairly high calving ease direct.

MATERNAL

Bulls with this icon are backed by good maternal cows and should produce excellent daughters.

EMBRYO TRANSFER

Indicates a bull from one of our donor cows, Basin Camilla 4942 or SJS Blackcap Lady 1802. Both dams are known for their strong maternal traits.

PRODUCTION EPDS

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL EPDS

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

\$VALUE INDEXES

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post weaning and carcass value compared to progeny of other sires.

CARCASS EPDS

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

CPAR BUYBACK PROGRAM

John Rose and Karoline Rose Bohannon are licensed and bonded order buyers in the state of Idaho and **would be interested in buying calves sired by CPAR bulls this summer.**

Load lots preferred. We are also interested in bred heifers, bred cows and replacement heifers as well as cull bulls and cows.

Karoline will rep calves on the Northern Livestock summer video sales.

NORTHERN LIVESTOCK 2024 SALE DATES: COMING SOON!
